Good morning – Your understanding is correct, Tomás. Here's Region 1's response to the question re: GC:

There's nothing significant in the South Fork permit BOEM needs to be aware [of]. Re: conformity, in the initial draft permit, we state the following, which speaks only to *our action* as it relates to the applicability of conformity:

Clean Air Act General Conformity

Pursuant to 40 C.F.R. § 93.153(d)(3), a conformity determination is not required for the portion of an action that includes major or minor new or modified stationary sources that require a permit under the NSR program. Therefore, the project activities accounted for in EPA's permit conform to the Massachusetts SIP.

Ex. 5 Deliberative Process (DP)

Thank you,
Megan

Joe and Tomas

Good afternoon. I hope you are both having a nice weekend.
